

Cogeneration & Small Power Production Rate

Schedule 6: Cogeneration & Small Power Production Rate

Effective 10/22/13

Applicable

Applies to cogeneration and small power production.

Cogeneration (see Salem Electric Service Policies)

SE may purchase power from qualifying cogeneration and small power production facilities at SE's avoided cost. If the resource would qualify as a Net Metering Facility, except for its nameplate rating, and the resource does not offset native load, SE may purchase power at SE's avoided cost plus a 1¢/kWh premium. At such time as SE purchases Tier 2 power, SE's avoided cost will be recalculated.
